Dear Parent or Guardian,

While issues of grief and loss are hard for anyone to handle, they can be especially painful and confusing for children. We invite your child to take part in a positive, healing experience.

Sharing with other children who are in similar situations and knowing that they are not alone can be very helpful.

Children often carry a heavy burden when someone they love dies. Our hope is that a Camp Comfort weekend will assist your child in understanding their loss.

We cannot take your child’s grief away. We will, however, give him or her an opportunity to learn some coping tools, develop a better understanding of their grief, and help them preserve positive memories of their loved one.

With hopes of healing,

The Camp Comfort Staff

At Camp Comfort, I didn’t feel so alone. Looking back at my 8-year-old self, I went from bottling everything up to learning to talk about my loss. I learned to live for my Dad and do things that would make him proud.

— Brandon, Volunteer and Past Camper

My kids came home exhausted but happy. This has opened us all up to talk about their Dad more. I’d tell everyone to send their kids if they had a loss.

A Special Colorado Camp that Helps Heal Heartbreak

Camp Comfort is a weekend camp offered twice each summer that addresses the special needs of grieving children ages 6 to 12. Founded in 1995, Mount Evans Home Health Care & Hospice's groundbreaking bereavement camp has helped more than 1,500 children find a path through their grief.

Camp Comfort offers children a supportive environment in which they can gain an understanding of grief and loss. Children learn ways to cope with their grief through workshops and activities, building skills that may help them now and throughout their lives.

Grief workshops are balanced with recreational activities, such as swimming, ziplining, horseback riding and fishing so that children feel free to have fun and just be kids.

I loved fishing and my buddy was a blast. I caught 8 fish! I can’t wait to come back to camp next year.
